Profile

Analysis and development of Web Applications and Websites at any level.

Skills

Web Design

Deep understanding of web design and user interface concepts, knowledge of W3C Standards and Search Engine Optimization.

Front-End Development

Excellent JavaScript proficiency, development in vanilla JS (preferred) or JQuery, deep knowledge of AngularJS framework, TDD with Karma/Jasmine and BusterJS, deploy with Grunt or Gulp.

Mobile Development

Developed a huge number of Mobile Applications both with and without a framework underneath. Also developed RefuelJS a Mobile Framework meant to be fast and easy.

Social Media Integration

Implementing social interaction and feedback on every kind of application. Knowledge of gamification concepts and creative ways to apply them. Tracking of the progresses and analysis of results.

Flex	

Experience

MIP (Buongiorno spa)
Lead Front-End Developer
May 2014 – Present

Working on the new Gamifive (giochissimo.it in Italy), second version of the Mobile/Desktop HTML5 Game Store of Buongiorno.it, bringing AngularJS and TDD development inside the project that has been re-written from scratch.

Appsfuel (Buongiorno spa)
Front-End Developer
August 2012 – May 2014

Worked on Appsfuel.com a new Buongiorno project: an app market for HTML5-Only Webapps avaiable on mobile and desktop. Worked on both the website and the webapp which i have

designed and developed entirely in vanilla Javascript for better performances. The project is now stable and the development has been suspended.

Playme (Dada spa)
Front-End Developer   October 2011 – August 2012 (11 months)

Working on Playme.it: Web and Mobile Music App, the full JS, faster and lighter version of the Playme Flex Application.

Playme (Dada spa)
Flash/Flex Developer   April 2009 – October 2011 (2 years 7 months)

I was in the team that developed Play.me, the music application of dada.it that currently is the first italian competitor of Spotify in Italy. The application provides more than 4 millions songs and a lot of tools to manage your music on the website.

CentoCento IMCT srl   October 2006 – December 2007 (1 year 3 months)
Web Designer\Web Developer

Web Designer in this little agency, i directly handled a lot of customers in this role, some of them were pretty significant. I also developed a CMS written in PHP named 'Scarlett CMS' that is still used by the CentoCento customers.

---

*Projects
(of the last
2 years)*

Gamifive (http://www.giochissimo.it)

Second version of the Mobile/Desktop HTML5 Game Store of Buongiorno.it, fully re-written alongside the team that made the first version but bringing AngularJS and TDD development inside the project.

Angular List Selector (https://github.com/Bolza/angular-list-selector)

AngularJS plugin, installable via Grunt and fully documented

Shake'n Quotes (http://bestquotations.net)

Little and nice application developed as Appsfuel side project. AngularJS based.

Appsfuel Market Facebook App (https://apps.facebook.com/appsfuel/)

Facebook App version of the Appsfuel Market, fully support on desktop and mobile. Also built on RefuelJS

TVShowmark (http://app.tvshowmark.it)

TV Series bookmark application, built upon RefuelJS, 2nd place in Fuel Your Friday Buongiorno Contest.

RefuelJS (http://refuel.github.io/)

JS Mobile Framework, the first in its category, now surpassed by newer versions of AngularJS but still with some very nice ideas in it.

Appsfuel Webapp [(http://app.appsfuel.com)](http://app.appsfuel.com)

No Framework, vanilla Javascript, adaptive with any modern mobile device

---
